Wines

FACTSHEET

HERDADE DA COMPORTA

WHITE 2010

Oenologist Francisco Pimenta

Region Comporta

Total Vineyard Area 30ha (25ha of red grapes and 5ha of white grapes)

Category Vinho Regional Península de Setúbal

Style White wine

Grape Varieties Arinto and Antão Vaz

Tasting Note Greenish-yellow in colour. A lively nose, with notes of lemon and tropical fruits. Medium body, with good balance of lemony, tropical fruit (from the Antão Vaz) and light, refreshing acidity (thanks to the presence of Arinto), and a long finish.

Soil Type Sandy

Exposure and Slope The vineyard is planted on flat land in a valley that runs from east to west, and is thus exposed to the sun practically all day long.

Position Slightly above sea level.

Climate Mild, thanks to its proximity to the ocean, with gentle winds, ideal for producing grapes with good colour, aroma and flavour.

Vinification The grapes, all from our own vines, were picked by hand into 20kg boxes, the varieties being kept separate. They were destalked and gently pressed. Fermentation took place in open tank at temperatures between 15 and 17°C.

Bottling Date March 2011

Alcohol 13,5 %

Total Acidity 5.70 g/l (tartaric)

pH 3.38
